

ZFIT is a branch-off mission from ZFI(Zero Foods Indonesia) with the goal of helping people be healthy and not just lose weight. With more innovations like Fiber Syrup(unflavored) that disappears into your morning coffee without a trace but gives you 6g of prebiotic fiber, ZFIT is ready to bring you over the finish line to living your healthy lifestyle dream. ZFIT has two products right now but will release many more throughout 2026.

ZFIT Fiber Syrup

Each bottle is 250ml(16 servings of 6g of fiber). There are two versions, one is flavored and allows you to enjoy your fiber and turn your cup of water into a delicious and refreshing Lemonade Pomegranate(still sugar-free) flavored drink and the other is unflavored and hides in any drink or even water without being detected while still delivering the prebiotic fiber you're after.

ZFIT ACVS

It's Apple Cider Vinegar raw and unfiltered with the mother BUT it also tastes good and is sugar-free. Our ACVS(Apple Cider Vinegar Syrup) is not diluted at all and is still 100% the same efficacy of any other premium ACV on the market but without the struggle. You can now add Apple Cider Vinegar to your jamu or health concoctions without it ruining the flavor.

Products:

ZFIT Fiber Syrup

ACVS

ZFIT Fiber Syrup Variations:

Lemonade Pomegranate
